

More Than A Retrofit-Spool It's A Solution!

The fast, versatile approach for efficiently replacing a backflow preventer

Working with Ames

Configure a backflow preventer replacement tailored specifically to your job requirements.

- Unique outside-the-shutoff valve design offers a wide choice of configuration options
- Configuration not limited by inside-the-shutoff valve and approvals
- Order only what you need – Backflow Preventer + Your choice: ACV + Strainer + Spool + Custom Fitting
- Custom spool produced with optional connections, flush ports, branches, or tees
- Order easily – configure a backflow retrofit solution in a few simple steps
- Built to order – ships fully assembled or as parts
- Most orders ship within 48 hours

Easily Configure Your Backflow Retrofit
